RESIDENTIAL

COMMERCIAL

ACCESSORY

1. Site Evaluation Review & On-Site Inspection

Same

Same

*Must be done before any excavation starts.
Location must be staked out and **property pins in place.***

2. Footing Inspection

Same

Pole holes must be excavated

Formed footings require the forms erected and required reinforcing steel in place prior to the placement of concrete.

3. Foundation Inspection

Same

Same

Once foundation has been poured, before any framing can begin.

4. Rough-Ins for framing, electrical, plumbing, mechanical Inspection

Same

Same

Must be done BEFORE insulation or sheet rock installation.

5. Plumbing Inspection

Same

Same

All drain pipes and clean outs in place prior to covering.

6. Final Inspection

Same

Same

*Building, yard grading and all phases of construction complete. House number must be posted.
Inspection must be performed before occupancy or any items moved in.*

I understand it is my responsibility to call for inspections at such times as stated above and that failure to do so may result in some or all work in question having to be removed and done again as to allow the inspection as required.

I also understand special rules apply if city sewer is unavailable to you. The rules governing on-site sewage disposal are available at City Hall.

Permit number must remain clearly posted at site address until construction is complete. Failure to do so could result in inspection(s) not being conducted.

THIS PERMIT WILL EXPIRE SIX (6) MONTHS FROM DATE OF ISSUANCE IF WORK HAS NOT COMMENCED. PERMIT WILL EXPIRE IF INSPECTION FOR COMPLETED WORK IS NOT CONDUCTED AT LEAST EVERY SIX (6) MONTHS.
